Overview

Institution of Railway Signal Engineers (UK), Indian Section and IRSTE (India) under the aegis of the Ministry of Railways (Railway Board) is conducting an International Convention and Systems Exhibition on '**Digital Transformation of Railways : Train to Track and Operations to Maintenance**' to engage the international and local industry on keeping pace with the new Digital technology in Indian Railways journey of Digital Transformation across all Sectors. A thorough understanding of digital transformation is required for expanding rail transport in today's economy. Digitalization, as a continual cycle of physical and virtual world convergence, is linked to cyber-physical systems and is responsible for the creation and transformation of several economic sectors. Industry 4.0 in Production Units and Railway workshops, Digital Twins across all functions of Railway operations. Advanced and extensive data analytics, mechanization, intelligent machines and automation are the major technologies and solutions that have propelled digital transformation in the railway sector. The convention would focus on the primary areas identified by the Indian Railways for Digital Transformation in new age Track laying and monitoring systems, advanced technologies being deployed for the local manufacturing of Train Sets like Vande Bharat, AI powered Control and Command Signaling, IoT based ML equipped predictive maintenance of assets need collaboration with technology and logistics partners for technological advancements, passenger-friendly assets and operations, integration for a cooperative Indian railways platform, freight consumer convenience, data analytics, cashless commerce, dashboards and alerts, and mobile applications.

This Seminar and Exhibition would help in achieving these objectives for improving functional implementation and consumer satisfaction.

Why Participate

1. **Get the first mover advantage in the new & emerging digital technological order**
2. **Reach out to the entire Railway Ecosystem**
3. **Demonstrate Technology Leadership**

How will it Help

- **Visibility & Opportunities in Indian Market**
- **Technology exports to South East Asia & African Union**
- **Joint ventures to Make in India**
- **Research partners on Frontier Technologies**
- **Projects worth USD 100 Billion in Indian Railway**
- **Incubators in India**
- **Soft landing platforms**
- **Investors and funding**
- **Invest in Indian opportunities**
- **Partners to Make in India**

Who should Participate

- **Who have home grown tech product, platform or services**
- **Who want to find partners for a JV to Make in India**
- **Co-create products, platforms and solutions**
- **Who want to access Indian market for exports**
- **Who want to expand to South & South East Asia**
- **Create new markets**
- **Bring new Digital Technologies**
- **Create new standards**
- **Looking for investment and funding**
- **Who want to establish business in India**

How will you Benefit

Showcase your technology capabilities, platforms and solutions to entire Indian Railway Fraternity
